Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Fukumoto (US 5,753,953).

Fukumoto discloses the claimed EEPROM device (Fig. 1) comprising a silicon substrate 1 having a source/drain region 2; a tunnel oxide layer 4 disposed over the silicon substrate; a select gate 6 disposed over the tunnel oxide layer, wherein the select gate is defined by conductive layer covered with a first insulated material 8a thereon and comprises a sidewall 8 made of a second insulated material; a floating gate 7 above the drain region 2 aligned to one side of the select gate; a third insulated material 10 disposed over the tunnel oxide layer, the select gate and the floating gate; and a control gate 9 formed on the third insulated material.

Regarding claim 12, each of the first insulated material, the second insulated material and the third insulated material is one selected from a group consisting of silicon oxide, silicon nitride and silicon oxide/nitride composite.

Regarding claim 13, the conductive layer is made of polysilicon.

Regarding claim 14, the floating gate and the control gate are made of polysilicon.

Art Unit: 2811

Response to Arguments

Applicant's arguments filed 08-14-2002 have been fully considered but they are not persuasive. Applicant argues that two traditional floating gates 7 respectively aligned to two sides of the select gate 6 are disclosed in Fig. 1 of Fukumoto and claim 11 requires that the floating gate be aligned to one side of the select gate. First, claim 11 requiring the floating gate aligned to one side of the select gate does not mean that the floating gate be aligned exclusively to only one side of the select gate, aligning to the other side of the floating gate is not excluded by the claim. Secondly, Fukumoto clearly discloses only one sidewall above the drain region 2 working as a floating gate 7 (col. 8, lines 1-2); therefore, there are no two traditional floating gates 7 aligned to two sides of the select gate 6 as alleged by applicant.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
